**ZBA CASE 18-149, 2046 DEPOT STREET, CRAIG'S AUTO BODY, 33-25-05-14-278-011**

---

Ms. Miller reviewed the staff report. Craig's Auto Body is requesting a variance that would allow a side yard setback of 17.5' from the north property line, rather than the required 20' setback in the IA: Industrial Assembly zoning district for a proposed addition. To the south of the existing building there are utilities and easements that encumber this area of the property and make it difficult to add onto the building in this location. In addition, the road right-of-way shifts in this area, creating a situation where much of the available land is impacted. These conditions make the vacant area to the south of the existing building prohibitive. The only other viable area for the building addition is to the rear of the existing building. This is where the applicant is proposing to add on, but would require the 2.5' variance to do so.

Glinda Starr, the owner of Craig's Auto Body, was present.
